

ULTG Track Head

LED Universal Gimbal

Product Overview

US LED's universal track head gimbal is the perfect solution for indoor track lighting applications, allowing for optimal thermal management to extend lifetime and reliability. This gimbal offers freedom of motion in the horizontal and vertical axis, enabling users to point the light exactly where it's needed the most. The universal track head gimbal is ideal for R20, PAR20, BR30, PAR30, and PAR38 screw-in lamps.
